Government Agency / Authority :Funded by Ministry of Health and Family Welfare, Government of India

Abstract :The aim of the survey was to assess the Reproductive and Child Health indicators at the district level. The survey covering all districts of Karnataka, Kerala and Goa was carried out by the PRC, ISEC. The data were collected from 1100 households each from all the districts spread over 50 locations, including rural and urban areas. The findings of the study can be obtained from RCH website at IIPS, Mumbai (www.rchindia.org). The findings were useful for district authorities to monitor the progress of RCH project at regular intervals. The project was funded by the Ministry of Health and Family Welfare, Government of India and coordinated from International Institute for Population Sciences (IIPS), Mumbai.
